About Vibe2Ship

Vibe2Ship is a national-level vibe coding hackathon by **Coding Ninjas in collaboration with Google for Developers**.

Built around the theme of **vibe coding**, Vibe2Ship challenges participants to move beyond ideas and turn them into real, working products. Whether you're a student or a working professional, this is

your opportunity to build faster, experiment boldly, and bring innovative solutions to life.

Over the course of the hackathon, participants will tackle real-world problem statements, transform ideas into working prototypes, and compete with top builders from across the country. More than just a competition, Vibe2Ship is a platform to push your creativity, sharpen your building skills, and showcase how quickly you can turn a challenge into a meaningful product in the age of AI.

Build. Vibe. Ship. 🚀

Timeline & Stages

1 Building Phase

22-06-2026 - 29-06-2026

🕒 2:00 PM

The Building Phase is the first round of Vibe2Ship, where participants will select **one of the two problem statements** provided and build a solution around it. The problem statements will be released on **22nd June**, after the registration window closes, and will be **shared exclusively with registered participants over their registered emails**.

As an individual participant, you will take your chosen problem statement from idea to execution- designing, developing, and showcasing a functional prototype that effectively addresses the challenge. This round is designed to evaluate your creativity, product thinking, problem-solving ability, and execution skills.

2 Final Presentation Round

12-07-2026 - 12-07-2026

🕒 12:00 AM

The **Top 10 finalists** will advance to the Final Presentation Round, where they will present their solutions online to an esteemed jury panel.

During this round, participants will showcase their prototype, demonstrate how their solution addresses the problem statement, and highlight the innovation, impact, and thought process behind their product. Finalists will also have the opportunity to explain

their approach, key features, implementation, and future potential, followed by a Q&A session with the jury.

This round will be active in 18 days

FAQ's

Discussion

Vibe2Ship Frequently Asked Questions (FAQs)

Who is eligible to participate?

Vibe2Ship is open to all college students and working professionals across India and participation is completely free of cost.

How can I register for Vibe2Ship?

Participants must register through the Blockseblock platform by clicking the "**Register Now**" button in the first fold of the event landing page. Only solo participation is allowed. Please check Resource Doc for reference

Who will receive certificates and prize money?

Certificates of participation will be awarded to all participants who submit their solutions. The top 5 participants, selected after the final presentation round, will receive cash prizes as per the prize pool along with a Certificate of Merit.

Who can I contact in case of any queries?

For any queries, you can write to us at **cndc@codingninjas.com** or reach out via direct messages on the Blockseblock hackathon platform.

Are there multiple problem statements in this hackathon? —

Yes, there will be 2 problem statements for participants to choose from. However, you can select and work on only 1 problem statement throughout the hackathon. Choose the one that best aligns with your interests, skills, and ideas.

The problem statements will be **released on 22nd June, after the registration window closes.**

Is there any specific tech stack or tool that participants must use? —

Yes. **Google AI Studio** will be the core tool for this hackathon and is expected to be used as part of your solution development. Beyond that, participants are free to use any additional technologies, frameworks, or tools that best support their project.
